

Recruiting Executive Melanie Murphy Joins RFID Recruiters

DALLAS, Texas, March 17, 2007 – RFID Recruiters, LLC announced that Melanie H. Murphy has joined RFID Recruiters as Director of Recruiting Services. Ms. Murphy previously worked at EDS (Electronic Data Systems) for 14 years where she served as Assistant Director for Recruiting. At EDS Ms. Murphy managed a team of recruiters focused on recruiting business executives, technologists, and other employees to support the growth of EDS' global Information Technology outsourcing business. EDS operates large scale computing and network infrastructures, manages applications, and provides business process reengineering for enterprise-class organizations throughout the United States and in every major market worldwide. Under Ms. Murphy's direction EDS recruited employees for both EDS' commercial and government business units. During Ms. Murphy's career at EDS her responsibilities included managing recruiting during EDS' acquisition of A.T. Kearney. Additionally she participated as the EDS recruiting representative on EDS's Office of the Chairman reengineering team during the company's Future By Design corporate reengineering initiative.

Michael S. Shiff, General Manager of RFID Recruiters said, "We are very pleased to have Melanie join RFID Recruiters. Her expertise in building recruiting teams to serve large scale information technology organizations and their customers will be valuable not only to RFID Recruiters but more importantly to our clients and candidates. As RFID Recruiters continues our growth both in the United States and in overseas markets Melanie's experience will help us scale our ability to provide recruiting services that continue to be highly specialized and attentive. Additionally, as RFID technology implementations multiply across both commercial and government applications Melanie's experience at EDS will further enable RFID Recruiters to support the unique requirements within both the private and public sectors."

Said Ms. Murphy, "I have watched RFID Recruiters grow over the last two years and I was impressed with their keen insight into the business and technology of RFID. I have also been impressed with RFID Recruiters' comprehensive approach to serving both clients and candidates and I am convinced that RFID Recruiters' focus on RFID has enabled the firm to become the premier provider of RFID recruiting services." Additionally Ms. Murphy said, "At RFID Recruiters we are clearly looking forward to building a worldwide recruiting service that will find and recruit the best expertise for any combination of business and technology skills needed to provide or use RFID solutions. The focused growth of RFID Recruiters' business combined with the huge potential for RFID to become a key platform for pervasive computing makes the opportunities ahead very exciting."
